

JD Mobile

Voice LoggerTM

A Must to Ensure Successful Business

Voice Logger or voice recorder is normally found only in PBX system to record conversations for training and other purposes. Today **JD Mobile Voice Logger** allows you mobility and a wide range of possibilities.

Our application allows Businessmen, Stock Brokers, Lawyers, Private Eyes and Security Personnel to be more efficient in their business transactions. **JD Mobile Voice Logger** helps to store important recorded conversations for future referencing purposes.

JD Mobile Voice Logger allows Telemarketing and Call Centers to overcome recruitment issues by allowing qualified agents to operate at home while not compromising quality.

Thanks to **JD Mobile Voice Logger** or else I would have lost RM 20K in the verbal share purchase agreement with my client last week when one of the Share counter drops RM 0.10 per share and the client tried to denied the deal

My team managed to solve a few extortion and kidnapping cases last month with **JD Mobile Voice Logger**.

We overcome our Human Resource issues by allowing Skilled Agents to work part-time at home while having good control and at a cheaper cost.

JD Mobile Voice Logger application is installed in either Nokia N70 or N71 of your choice to allow you to record all your conversation every time you make or receive a call. You have a full control to either turn on or turn off the recording features with a click.

The conversation will be recorded in a 2Gb memory card with date and time stamp for easy referencing. The other features includes password protection to prevent eavesdropping and erase protection to avoid unauthorized deletion features .

JD Mobile Voice Logger come with a basic PC software for you to download the files and manage the filing of the recorded conversations for future referencing.

This phone is very useful for:

- | | |
|-----------------------|-----------------------------------------------|
| Stock Brokers | - To prevent unnecessary arguments |
| Call & Tele Centers | - Allow flexibility and solve manpower issues |
| Private Eyes & Police | - For security and crime prevention |
| Businessmen | - Mobile Meeting Minutes Taking |
| Other operations | |

Optional Feature

- Auto Conference Call or Background Third Party Calling
- Customized PC Based Voice Recording Management Software
